

Vital Procollagen® is your nightly ritual for movement, radiance, and recovery.*

This premium liquid formula is designed to support joint comfort, healthy cartilage, skin elasticity, hydration, restful sleep, and hair & nail strength — all in one simple evening routine.* Individual results may vary.

Directions:

SHAKE WELL. Measure 0.5 fl oz (15 mL) using the dosage cup attached to the bottle cap.

Take 1 serving once daily within 1 hour before sleep. For best timing, take about 30–60 minutes before turning off the lights and going to sleep. It may also be taken right before going to sleep.

Take undiluted as a single shot followed by a few sips of water or juice. If preferred, dilute in a small amount of water or juice and drink promptly. Do not prepare in advance.

Ideally take 2–3 hours after dinner or with a light stomach.

After use, rinse mouth thoroughly with water, brush teeth, complete any final bedtime steps, turn off the lights, and go to sleep. Do not take during the night. If missed, skip and resume the following evening. **Optional:** May be taken with vitamin C, 250–1,000 mg, as a tablet, capsule, or powder.

WARNING: As with any dietary supplement, consult your physician before use. Not recommended during pregnancy. Biotin may interfere with some lab test results. Natural source materials may vary in color and taste from batch to batch. These variations are normal and do not affect product quality.

Store in a cool, dry place. Avoid excessive heat and direct sunlight.

Manufactured in a facility that uses machinery that also processes products containing milk, eggs, fish, shellfish, tree nuts, peanuts, wheat, and soybeans.
